HIGHLIGHTS

Dual WAN Connectivity
Two internet providers with automatic failover and load balancing.

Multi-Branch Networking
Secure, fast site-to-site links that keep your offices connected as one network.

Voice Ready
Keeps IP-PBX and VoIP trunks working when an internet line fails.

Provider VPN Support
Built-in SoftEther VPN client for service providers' VPNs.

Firewall & Port Forwarding
Network security and access control.

WAN Monitoring
Real-time link status and network health.

IDEAL FOR

Single Site, Two Providers
Uninterrupted internet and voice for one office.

Multi-Branch Businesses
Connect head office and branches securely.

Offices with IP-PBX
Reliable VoIP trunks over two internet lines.

Business-Critical Sites
Always-on connectivity for clinics, retail and warehouses.

SECURE NETWORK
Encrypted and protected

RELIABLE
Automatic switch to the second line

EASY MANAGEMENT
Setup wizard and web dashboard

COST-EFFECTIVE
One box for failover, VPN and firewall
